

How We Help

Hand in Hand Senior Placement was established in 2010, by owners Marla Petro and McKenzie Cross. For Hand in Hand, making a placement is more than just finding someone a place to live - it's finding them a home.

Hand in Hand Senior Placement is a referral service for families looking for independent living, assisted living, and Alzheimer's care communities in western Pennsylvania and eastern Ohio. Our services are free for the families we serve, thanks to our partnerships with area senior care communities.

Hand in Hand Senior Placement Makes a Difference:

- *We eliminate the task of researching and contacting facilities that can't meet the medical or financial needs of the client.*
 - *All clients are medically assessed, and the facility of choice is provided with assessment information, upon family approval.*
 - *Social and financial information is discussed prior to touring facilities, in order to guarantee that all clients are a social, medical, and financial fit for the communities of interest.*
- *We guide clients through the decision-making process.*
 - *We remain in constant contact with local care communities, in order to have the most up-to-date information on availability, amenities, and pricing.*
 - *We will coordinate facility tours and accompany families (when requested) on tours.*
 - *We facilitate information exchange between the community of choice and the client's physician, hospital, skilled nursing facility, etc.*
- *We ensure that all arrangements and documentation are completed prior to move-in.*
 - *Individual community requirements are reviewed with the family prior to admission.*
 - *VA Aid & Attendance is reviewed, when applicable.*
